

Course Name: Ice/Cold Water Rescue Technician

Full Description: Advanced level ice rescue training including self-rescue, shore-based ice rescue techniques, and go ice rescue techniques. This is a hands-on training program which includes a significant amount of on ice time for skill practice. It also addresses the effects of cold water on victims, ice rescue techniques, offshore techniques, and ice rescue equipment. The course will include several scenarios-based ice rescue exercises.

Designed for: All emergency response personnel

Course Length: 16hrs
