Extraordinary FISHING Opportunities in Western NY!

Panfish

Simply put, there is nothing more enjoyable to fish for – be it for the youngsters or the rest of the family – than the tasty panfish. Fishing close to shore, in the lake tributaries or around marina docks with live bait like red worms or minnows can be very productive. Yellow perch can be found offshore in huge schools and we are famous for the jumbo variety. Tackle as simple as a hook, sinker and bobber is all you need for a great time with the family – no matter what the age.

second to none and you can see why Olcott was named the Ultimate Fishing Town by the World Fishing Network. Tributary action on this lake is stellar, too. Whether you are looking for trophy game fish or just some fun fishing with the kids, there is no better place than the region we have mapped out here. Make this the best place to catch that fish of a lifetime … or make memories that will last the rest of your life.

trout are both readily available here in both lakes, as well. Catch rates for steelhead in our tributary streams and the Lower Niagara River are some of the best in the country. Muskellunge fishing in the Niagara River is world class and a closely guarded secret. In Lake Ontario, the 30 mile shoreline from the Niagara Bar to 30 Mile Point offers some of the best spring salmon fishing in the country. Add in a trophy brown trout fishery that is

Our Great Lakes of Erie and Ontario, as well as the mighty Niagara River, offers fishing opportunities second to none. Lake Erie has been recognized by B.A.S.S. as one of the best places in the world to catch smallmouth bass. For trophy walleye, there is a robust local population in our portion of Lake Erie, complemented by a large migratory school that arrives from the Western Basin of the lake every summer. Steelhead and lake

Sportfish

Sportfish can split into two groups: warm water and cold water species. There are near-shore and offshore opportunities in all of our waters, depending on the time of year. These are a few of the fish that make our region famous and give you the thrill of the catch that will last you a lifetime.

There are more fish to catch!

Some other species to consider include bullhead, catfish, sheepshead and more to make it an exciting day to wet a line and get your heart racing. Carp are gaining recognition and impressive specimens can be caught throughout the region.
