ABOUT BOOK "B"

The line-item budgets contained in this separate budget document are organized into four major sections covering all special funds included in the 2008 Proposed Budget.

The first section provides line-item appropriation and revenue detail for the county's 2008 grants, and contains grant budgets for each department. Grants are budgeted in a separate fund, the Grant Fund, which is not a part of the county's operating budget. County share portions of grant budgets are, however, included as interfund expenditures in each department's operating budget.

The grant budget information for each department contained in Book "B" includes a brief description of each grant, as well as line-item appropriation and revenue detail. Personal services information includes historical data similar to that included in the operating budget. Appropriation detail is included only for the 2008 requested and recommended amounts. Estimated revenues for each grant, listed by account, follow the project's appropriation detail. Revenue detail is included only for the 2008 requested and recommended amounts for each grant.

The second section covers various sewer districts and the Division of Sewage Management in the county's self-supporting Sewer Fund. It provides a brief description of each entity's operations and a detailed

budget. Appropriation and revenue detail is included for 2005 and 2006 actual amounts, the current year adopted and adjusted budgets and the 2008 requested and recommended amounts.

The sewer districts and the Sewer Fund are self-supporting and are not a part of the county's operating budget. To the extent that General Fund departments provide services to the Sewer Districts, interfund revenues are budgeted in the General Fund departments.

The third section includes the 2008 Proposed Capital Budget and the 2008-2013 Capital Improvement Program. Information provided in this section includes project descriptions, location of projects, total project cost and 2008 capital budget allocations for each project. Also included are detailed schedules for each department showing recommended projects and project expenditures for the six-year capital program period.

The fourth section covers the Debt Service Fund, which is a part of the county's total operating budget. The section begins with explanations of the county's debt management policies and the purposes of the Debt Service Fund, the types of expenditures paid out of the fund, and its sources of revenue. This introduction is followed by schedules showing line-item appropriation and revenue detail. Information is provided for 2005 and 2006 actual revenues and expenditures, the current

year adopted and adjusted budgets, and the 2008 requested and recommended amounts. The section concludes with schedules showing the county's outstanding debt and debt service payment requirements for each fund and each issue. Also provided are a statement of the county's bonded indebtedness and a calculation of the county's total net indebtedness.

The index for Book B is followed by budget resolutions which pertain to implementation of the 2008 Budget.

DISTRICT ATTORNEY – GRANTS

AID TO PROSECUTION

This project is a continuation of an existing grant for the entitlement period 4/1/08 to 3/31/09. The purpose of this state grant is to provide funding for increased effectiveness in prosecuting serious, violent crimes. Assistant District Attorneys and support staff are assigned to provide specialized, expedient and efficient prosecution of serious, violent and repeat felony offender cases. Studies have shown that a disproportionate number of crimes are committed by a small cohort of "career criminals". Targeting these felons with vigorous prosecution should result in long-term incarceration, which is an effective means of significantly reducing crime.

Investigative resources of the District Attorney's Office and victim assistance are strengthened, and needs/safety assessments and referrals provided. BE-SAFE improves both the prosecutorial and investigative skills by providing training and education. This grant period is a collaboration with Erie County Probation Department., who will act as lead agency.

In addition to prosecuting these crimes, the Community Prosecutor works directly in conjunction with community based programs and block clubs to help empower those neighborhoods to become involved in helping to make their communities safe and secure environments.

The purpose of this three-year special demonstration program is to more formally and better integrate substance abuse assessment and prevention services into Child Protective Services (CPS) investigations of reports of child abuse and neglect. It funds a contract with the Erie County Medical Center for the collocation of Certified Alcoholism and Substance Abuse Counselors (CASAC's) within CPS teams to provide integrated chemical dependency assessment, treatment referral, case management, and prevention services.

Chemical dependency is implicated in a high percentage of child welfare cases, greatly increasing the risk of recurrence of child abuse and neglect, and is a major barrier to the reunification of children who are in foster care with their biological parents. And chemically dependent youth stand a far greater chance of involvement in the juvenile justice system. A research component of the demonstration program will compare outcomes of cases served through the collocation model with a control group of cases served without the collocation component. The collocation model is designed to improve both child welfare and chemical dependency outcomes of the families involved by increasing problem identification, facilitating access to treatment, increasing treatment engagement and retention, and improving coordination between service providers and child welfare workers. The grant is 100% funded by New York State.

CHEMICAL DEPENDENCY COORDINATION TEAM

This grant project is a continuation of an existing grant for the entitlement period 1/1/08 to 12/31/08. The purpose of this program is to support a specialized chemical dependency coordination team that provides a system of enhanced case identification, triage, client engagement and community based service plan coordination for the chemically dependent population that are high to moderate users of inpatient detox/rehab services. The team is a collaborative effort involving Social Services staff with dedicated caseloads and the Managed Addictions Treatment Services (MATS) program operated by Spectrum Human Services. The services are coordinated through the Erie County Department of Mental Health. The 250 clients to be served annually by the program are recipients of Temporary Assistance. A key component of the program is expedited entry of these individuals into employment and enhanced monitoring of treatment program attendance and client behavior. The grant is funded by New York State with a balancing County Share contribution.

CPS CASELOAD REDUCTION GRANT

This grant project is a continuation of an existing grant for the entitlement period 4/1/08 to 3/31/09. The purpose of this grant is to support enhanced staffing for mandated Child Protective Services operations in order to reduce the average size of worker caseloads which have become too large to effectively manage. Each month comprehensive investigations of up to 900 reports of abuse or neglect are initiated within 24 hours of the receipt of a report of child abuse or

neglect from the New York State Central Register. Increasing trends in the number of reports of abuse and neglect that must be assigned to each worker is a problem statewide. This grant award partially addresses the need for more resources while the state completes a comprehensive study of workload and caseload size. The grant covers the salary and fringe benefit expenses of seven (7) Child Protective Workers. The grant is funded by New York State with a balancing County Share contribution.

DAY CARE REGISTRATION PROGRAM

This grant project is a continuation of an existing grant for the entitlement period 1/1/08 to 12/31/08. The purpose of this program is to ensure the provision of safe, quality child day care through registration and inspection of family day care providers and after-school programs. These providers are an important component of the child day care delivery system to both low income non-public assistance recipients and also to public assistance parents assigned to "Work First" activities. The program was expanded in 2001 to include new inspection, monitoring, training and fingerprinting responsibilities mandated by the federal government. The Department also contracts with the Child Care Coalition of the Niagara Frontier via this grant for orientation and training programs for family day care providers and fingerprinting provider staff. The grant is 100% funded by Federal reimbursements passed through New York State.

ENERGY SERVICES PACKAGING PROJECT 08-09

This grant project is a continuation of an existing grant for the entitlement period 10/1/08 to 9/30/09. The purpose of this federal program is to assist low income households, regardless of age, with household energy problems. The program identifies energy-vulnerable households in need of energy packaging services and provides energy case management services and consumer education for household

members. The program also helps to coordinate energy suppliers, community groups and Department of State Weatherization Program providers to meet the needs of targeted households. The Department of Social Services contracts with the Department of Senior Services for these services through an interdepartmental agreement. The grant is 100 percent reimbursed with Federal funds passed through New York State.

HOME ENERGY ASSISTANCE PROGRAM (HEAP)

This project is a continuation of an existing program for the entitlement period 10/1/08 to 9/30/09. The purpose of this Federal program is to assist low income families and individuals meet their home energy costs and to assure continuing utility service. The funds are used to pay basic heating assistance benefits as well as emergency heating assistance benefits to avoid utility disconnection. In the 2007-08 program year the majority of payments were shifted to Electronic Funds Transfers (EFT's) to utility companies and other home energy providers on behalf of eligible households based on eligibility criteria and benefit levels established by New York State. These EFT payments are now made directly by New York State and the County will not need to budget funds for the payments made by the state. County will be responsible for making only direct payments to utility and other vendors that cannot be made through the state's EFT process. Approximately 135,000 payments for heating assistance are authorized annually under this program.

Program benefit payment expenses only are funded in this grant project. Administrative costs of the program, for application processing, eligibility determination, and payment authorization, have been moved to the Department's operating budget as a result of conversion to the County's new accounting system. This change is consistent with the way these expenses are claimed for reimbursement. Outreach activities, including a portion of intake and certification for both basic and emergency benefits, are subcontracted to the Department of Senior Services through an interdepartmental agreement. Outreach services are provided in both semi-permanent and temporary community sites as required. Funds for the administration of the Senior HEAP program are also passed through to the Department of Senior Services through an interdepartmental agreement.

Any reduction in Federal support for the HEAP program during the entitlement period may require a reduction in program service and a shift of the cost of heating assistance provided to Public Assistance clients from HEAP to Family Assistance (FA) and Safety Net Assistance (SNA) programs. Also, the heating costs of non-Public Assistance families and individuals would shift to the Emergency Assistance to Families (EAF) and the Safety Net Assistance (SNA) programs. HEAP program benefits are 100 percent funded by Federal reimbursements passed through New York State.

INTENSIVE CASE SERVICES FOR NON-COMPLIANT FAMILIES

This grant project is a continuation of an existing grant for the entitlement period 6/1/08 to 5/31/09. The purpose of this program is to provide enhanced case management services to up to 300 TANF clients subject to benefit sanctions because of their failure to comply with work requirements. These clients are often difficult to engage because benefit sanctions result only in a pro rata reduction of total household benefits rather than the closing of the case. Services provided for these clients through four community based agencies include daily one-on-one case management that is designed to assess barriers to employment, work participation and self-sufficiency and to put in place continuous and rigorous individualized strategies to overcome barriers. Special subsidized employment placements will also be provided to 55 clients who are determined to be job ready. It is critical that these clients be engaged and come into compliance so that the required Federal work participation rate is achieved and significant financial penalties for failure to do so are avoided by the County. The grant is 100 percent reimbursed with Federal funds passed through New York State.

LONG TERM CARE POINT OF ENTRY PROGRAM

This grant project is a continuation of an existing grant for the entitlement period 10/1/08 to 9/30/09. The purpose of this program is to support the development of a local Point of Entry (POE) that will provide a consumer centered entry point for all medical, non-medical, institutional and other community long term care services. The POE will be available to serve individuals who need long term care, their caregivers and those planning future long term care needs, whether it is anticipated that public or private sources of payment will be used. The POE will provide a single entry point for information about long term care and linkage to services that assist individuals of all ages with long term care needs. Funds are provided to support POE operations including staffing, local long term care planning and collaboration through the establishment of a Long Term Care Council (LTCC) and the initiation of program operations to implement the initial core functions of Information and Linkage Assistance, Screening and Needs Assessment, and Public Information. The Department of Senior Services is designated as the lead agency through an interdepartmental contract in the grant. The grant is 100% funded by New York State.

STRENGTHENING FAMILIES PROGRAM

This grant project is a continuation of an existing grant for the entitlement period 4/1/08 to 3/31/09. The purpose of this program is to increase the accountability of non-custodial parents for payment of court ordered child support, foster greater involvement in the lives of their children and to enhance the self-sufficiency of both the custodial parent and children as well as the non-custodial parent. A portion of the grant supports the continuation of the Dedicated, Accountable, and Self-Sufficient (D.A.D.S.) Program partnership between the Erie Community College's Education to Recovery Program, the Erie County Family Court and the Buffalo Drug Court. The grant also funds a range of community based services, including employment services, to better enable non-custodial parents to meet their child support obligations. The grant is 100% funded by New York State.

MENTAL HEALTH-GRANTS

SINGLE POINT OF ACCOUNTABILITY Intensive Community Services

This grant represents the consolidation and expansion of several projects that are targeted primarily to high risk/high need children and youth with a serious emotional disturbance (SED) and/or behavioral disorder and their families. Its entitlement period is 1/1/08 to 12/31/08. The SPOA process targets children and youth at risk and/or with a history of hospitalization or out-of-home placement, with multi-system involvement or needs, with functional impairments and/or psychiatric symptoms, and an unsuccessful history of community services. The primary goals of SPOA include maintaining high risk/high need children in the community with their families, reducing out-of-home placements, facilitating the earlier return of children and youth already placed out-of-home, increasing access to community based services, utilizing an individualized care model with a strength-based approach and assuring active parent involvement at all levels of the SPOA. In 2006, the focus of these initiatives was expanded to include PINS and JD Diversion Services to reduce placements to institutional care for these at-risk populations. In 2008, we are further expanding system of care principles, practice and valued outcomes toward services targeted to youth who are at significant risk of institutional placement due to co-occurring mental health and developmental disabilities or significant alcohol and/ or substance abuse problems, and youth at risk of system penetration due to educational neglect. Through cross systems partnering and system of care funding strategies, the grant provides significant resources to support the delivery of a comprehensive array of community services for individuals in the above target populations including each of the following:

- Expanded access to Clinic Treatment (i.e., Family Functional Therapy) for children referred to Family Court;
- Multisystemic Therapy;
- Children's Services Enhancement Program;
- Children's Supportive Case Management;
- Children's Mental Health Wraparound Reform;
- Evidence Based Alcoholism and Substance Abuse Treatment and Recovery Services;
- Mental Health Wraparound Residential Demonstration;
- Family Support/ Mentoring;
- Urgent Access Short Term Intensive In Home;
- Early Intervention/Residential Treatment Diversion;
- Overnight Respite;
- Community Diversion from Non- Secure Detention;

- PINS Diversion Mediation;
- Intensive Monitoring/ Tracking Detention Diversion;
- System of Care Inpatient Diversion for MICA Adults; and
- Mobile Crisis Outreach.

Approximately 1,800 children and their families can be served with this continuum at any point in time. Reflecting the multiple system needs of the individuals served, this grant is funded with a combination of New York State Office of Mental Health State Aid and Erie County Department of Social Services interdepartmental transfer funds.

FAMILY VOICES: CHILDREN'S SERVICE SYSTEM REFORM SAMHSA Child Mental Health Initiative

This grant represents an award made by the Substance Abuse and Mental Health Services Administration (SAMHSA) under the Department of Health and Human Services' Comprehensive Community Mental Health Services for Children and Their Families Program. Its entitlement period is 1/1/08 to 12/31/08. The grant's overall goal is to augment and expand an ongoing reform process for the County's system of care serving children who are at risk of out of home, school, or community placements due to the behavioral manifestations of serious emotional disturbance. The initiative emphasizes prevention of residential placements, reducing the length of stay when a child has been placed in residential services and improved clinical outcomes for children and families through linkage to intensive services in the community. These services will be provided consistently with the national wraparound model of care coordination. The wraparound model is an evidence based approach in which services are planned and implemented on an individual family basis by an interdisciplinary team of professionals and other individuals with significant relationships to the family in a manner that is family driven and consistent with the child's and his/her family's strengths and needs.

Other services developed include specialized mobile crisis response team, overnight respite, short- term emergency residential services, and a broad continuum of community services purchased

though vendor contracts utilizing Wraparound funding to address individualized family service objectives and needs. The project also increases the number of family and youth advocates in the children's mental health system and expands the role of families and youth toward planning for future service development and the oversight of service delivery and policy formation. A total of 1,800 families will receive services through this six year reform initiative.

WOMEN, INFANTS AND CHILDREN'S SUPPLEMENTAL NUTRITION PROGRAM (WIC)

This grant is a continuation of an existing grant for the entitlement period 10/1/08 to 9/30/09. The purpose of the grant is to reduce the incidence of nutrition-related illness in pregnant women, infants and children. The target populations are pregnant and nursing women, infants up to 12 months of age, and children up to five years of age who are at nutritional risk and meet financial eligibility requirements established by the US Department of Agriculture. The grant provides nutrition education, diet counseling, mandated breastfeeding education and postpartum lactation assistance by a Board Certified (IBCLC) Lactation Consultant, as well as distributing WIC checks for the purpose of approved supplemental foods high in nutrients. Encouraging breastfeeding over formula feeding is a priority issue in WIC, and is further enhanced in this funding year with an additional (exclusive) grant from the NYSDOH to distribute quality breast pumps to those clients who choose to exclusively breastfeed. The WIC grant is funded with US Department of Agriculture monies channeled through the state.

ENVIRONMENT AND PLANNING COMMUNITY DEVELOPMENT FUND - GRANTS

The following pages contain both the Operations Budget for the administration of the Community Development Block Grant Programs and the estimated Grant Budgets for the three awarded programs. These programs are a continuation of three existing grants from the U.S. Department of Housing and Urban Development for the entitlement period of 04/01/08 to 03/31/09. It is anticipated that federal support for these programs will continue at the following levels:

Community Development Block Grant	
Federal Share	\$ 3,296,459
Program Income	\$ 588,354
HOME Investment Partnership	
Federal Share	\$ 1,135,695
Program Income	\$ 95,000
Emergency Shelter Grant	
Federal Share	\$ <u>126,546</u>
TOTAL	\$ 5,242,054

A resolution will be presented to the Legislature in February authorizing the Department of Environment and Planning to administer the awarded amounts and execute any and all agreements to implement the programs. The awarded amounts will be accounted for as Funded Programs in SAP.

The Community Development Block Grant is used to assist participating municipalities in the development of locally approved community or economic development activities which are eligible under federal program regulations. It is also used for a housing rehabilitation loan program.

The HOME Investment grant is used to rehabilitate the homes of low and moderate income homeowners, as well as assisting in the purchase of homes to qualified first time homeowners. Additionally, non-profit community housing development organizations receive funds to purchase and rehabilitate housing for low income households.

The Emergency Shelter Program funds several non-profit agencies to provide homeless services to homeless individuals and families.

These programs serve all cities, towns and villages in the County with the exception of the cities of Buffalo, towns of Amherst, Cheektowaga and Tonawanda, and the villages of Kenmore, Sloan, Williamsville and the Cheektowaga portion of Depew.

COUNTY EXECUTIVE - COMMUNITY DEVELOPMENT FUND-GRANT -

OFFICE OF WORKFORCE DEVELOPMENT

This is a continuation of an existing project for the period 1/1/08 to 12/31/08 to fund activities of the Buffalo and Erie County Workforce Investment Board (WIB). The Office of Workforce Development provides staff support for the WIB and advises the County Executive on workforce development issues. The WIB has the key role of providing direction on local strategic workforce issues, identifying needs, and developing strategies to address those needs. It is responsible for overseeing the Title I program under the Workforce Investment Act, Welfare-to-Work programs, and the Youth Opportunity Grant for the City of Buffalo. Appointed by the County Executive and the Mayor of Buffalo, the WIB works in partnership with these elected officials to develop the five-year workforce investment plan, select One-Stop Operators and providers of training for workers, coordinate a wide variety of Federal and other employment and training programs, promote private sector involvement in the workforce development system, and coordinate workforce training with local economic development efforts. In its role as overseer of the local workforce development system, the WIB must establish program performance standards in conjunction with the New York State Department of Labor.

All costs associated with the Office of Workforce Development are reimbursed to Erie County from federal funds provided under the Workforce Investment Act.

SEWER DISTRICTS

DESCRIPTION

The Erie County Sewer Districts are special service districts created pursuant to state and local law.

They have been created to provide sewer services to communities within their respective boundaries, as specified by contracts between each district and the local jurisdictions served. Sewer districts are responsible for the construction, operation and maintenance of collector and interceptor storm and sanitary sewer systems, and wastewater treatment facilities.

The Sewer Districts are governed by Boards of Managers appointed by the County Executive.

The Sewer Districts are self-supporting entities with the power to assess appropriate service fees and levy local sewer taxes. Their annual revenues, which are sufficient to cover all operating costs and capital debt service, are derived from a combination of flat rate charges, parcel charges, footage charges, user charges, and sewer charges based on the assessed value of real property, and other property and usage characteristics.

Capital construction is eligible for both federal and state aid when available; however, only low interest loans are presently available. The Sewer Districts have received 34 low interest loans totaling \$60 million as part of a multi-million dollar construction program.

ERIE COUNTY SEWER DISTRICT NO. 1

This District serves the southern portion of the Town of Cheektowaga and the northern portion of the Town of West Seneca.

Infrastructure includes a network of pumping stations, interceptor and collector sewers which transport sanitary sewage for treatment by the Buffalo Sewer Authority.

ERIE COUNTY SEWER DISTRICT NO. 2

This District serves portions of the Towns of Brant, Evans, Eden, Farnham, Hamburg and North Collins, including the Villages of Angola and North Collins. Out-of-District agreements also provide service to the Lotus Bay Area Sewer Districts, and Evangola State Park. The District operates and maintains a network of pumping stations, collector and interceptor sewers which convey flow into the District's own sewage treatment facility at the mouth of Big Sister Creek near Lake Erie. The Sewage Treatment Facility is staffed and operates 24 hours/day.

ERIE COUNTY SEWER DISTRICT NO. 3/SOUTHTOWNS

Sewer District No. 3 serves the Towns of Hamburg, Boston, Orchard Park, Eden, and the Mt. Vernon, Locksley Park, Wanakah, Amsdell Heights and Cloverbank areas in the Town of Hamburg; Woodlawn, and Sewer District No. 3. Sewer District No. 3 also includes portions of the Town of West Seneca and the Town of Holland.

District No. 3 also operates and maintains three modern sewage treatment facilities in the Town of Hamburg (Southtowns Treatment Plant), the Town of Holland and the Village of Blasdell for treatment of the sewage from those communities as well as portions of the Town of Hamburg tributary to the Village of Blasdell's system. The Southtowns Treatment Plant is staffed 24 hours per day, 365 days per year. The other two treatment facilities are staffed Monday through Friday 8:00 a.m. – 4:00 p.m.

Additionally, Sewer District No. 3 operates and maintains a network of pumping stations and interceptor sewers which transport sewage to its modern treatment facility on Lake Erie.

ERIE COUNTY SEWER DISTRICT NO. 4

This District serves the Villages of Depew and Lancaster and portions of the Town of Lancaster. Infrastructure includes a network of pumping stations, collector and interceptor sewers which transport sanitary sewage for treatment at the Buffalo Sewer Authority. By contract the District also services the Alden Town Sewer Districts.

ERIE COUNTY SEWER DISTRICT NO. 5

This District serves the Transit Road area of the Towns of Amherst and Clarence, in addition to adjacent residential areas and Clarence Center. Infrastructure includes a network of sanitary sewers which transport sanitary sewage to the Town of Amherst for treatment at the town's treatment facility. This District also operates one small sewage treatment plant and services various Town of Clarence Sewer Districts by contract.

ERIE COUNTY SEWER DISTRICT NO. 6

This District serves the City of Lackawanna and several out-of-district areas by contractual agreement. It operates and maintains the network of sanitary and storm sewers in the City of Lackawanna as well as a sewage treatment facility. The Sewage Treatment Facility is staffed and operates 24 hours/day.

ERIE COUNTY SEWER DISTRICT NO. 8

This District serves the Village of East Aurora and portions of the town of Aurora. Infrastructure includes collector sewers, pumping stations and an advanced wastewater treatment facility.

DIVISION OF SEWERAGE MANAGEMENT

The Division provides management staff related to the administration, planning, financing, management, operation, design and construction of the sewer facilities. Engineering duties include: facilities planning, design, information technology, community outreach and education, supervision of construction, inspection, approval of contractor payments, applying for the financing of new projects, accounting, and handling of construction claims. The Division also supervises the daily operation of the seven Erie County Sewer Districts. Sewerage Management is funded through interfund and interdepartmental revenues from various sewer districts and capital projects which, in turn, receive state and federal construction grants and loans.

CAPITAL BUDGET

Introduction to the 2008 Capital Budget

This section of the budget includes the 2008 Capital Budget and 2008-2013 Capital Improvement Program. The Erie County Charter, Article XXVI, requires the County Executive to submit annually to the Legislature a capital improvement program for the next six-year period. Article 26 of the Erie County Administrative Code establishes procedures for the Budget Director and a Capital Projects Committee to develop a recommended six-year Capital Improvement Program. The capital programming process for most projects normally takes place between May and August, with submission of a recommended Capital Improvement Program to the County Executive required by September.

Capital projects are defined as all physical projects having a minimum value of \$50,000 which meet the following criteria: (1) All physical projects of a non-recurring nature, including construction, improvements or renovations to buildings, roads, bridges, parks, etc.; (2) Acquisition of equipment which has a useful life of five years or more; or (3) Acquisition of property or planning/engineering studies which will lead to a capital project.

All projects proposed for inclusion in the six-year program are submitted by the sponsoring departments to

the Department of Environment and Planning, which is responsible for coordinating the development of the capital program. Information concerning cost, project justification, location and suggested programming year is submitted.

Each project is analyzed by the Department of Environment and Planning and the Capital Projects Committee. Certain projects are also analyzed by the Erie County Development Coordination Board, which is appointed by the County Executive. The Capital Projects Committee consists of representatives from those county departments prescribed by the Erie County Administrative Code. Projects are ranked according to criteria established by the Development Coordination Board. The Board is assisted by the Department of Environment and Planning. Projects with a significant impact on public health and safety receive the highest ranking. A six-year program is prepared which considers project relationships to each other, as well as financial requirements. The program includes an annual Capital Budget which defines those projects recommended for implementation during the coming year.

The Capital Projects Committee submits its

recommended Capital Improvement Program and proposed Capital Budget to the County Executive by September for his consideration in preparing the annual County budget.

The Capital Budget is a separate portion of the total County budget for the coming fiscal year. It represents the first-year implementation of projects in the six-year Capital Improvement Program. The Capital Budget is developed separately from the operating budget of the County for several reasons. Capital improvement projects usually involve substantial expenditures which may be required over a period of years.

Capital projects are also different from activities that are funded under the operating budget. Capital projects include physical development projects such as new public buildings, sewers or parks, and road or bridge construction. The operating budget, on the other hand, includes ongoing operating and normal maintenance expenditures.

Development of a six-year Capital Improvement Program is an effective way to plan for future physical improvements and to analyze both the expenditures that will be required to finance these improvements and the potential impacts of the projects at an early stage. It also sets priorities for capital improvements and thus ensures that the most critical needs are met first.

The capital planning process has been enhanced in a number of significant ways. The capital programming strategy considers and balances the County's ability to both complete previously authorized projects and undertake new projects. Financial as well as operational capabilities are assessed and capital borrowing targets are established.

In order for projects to be considered for the 2008 Capital Budget, they had to meet one of the following tests:

- **Health and Safety** - Projects which have a direct relationship to reducing hazards to the health and safety of county residents or employees. This is considered to be the highest priority criterion in the review process.
- **Previous Commitment** - Multi-year projects which were authorized in prior years, and which require necessary funding to complete the entire project.
- **Legal or Governmental Mandates** - Projects which the County is required to undertake by law or court order, or under federal or state mandate.
- **Special Considerations** - Projects which do not meet the above tests but which warrant further consideration due to special circumstances, such as the loss of outside funding if the project is not undertaken.

Any project which passed the initial screening was analyzed by the Planning Division using weighted review criteria. The use of weighted review criteria results in numeric scores and, subsequently, a preliminary priority listing of proposed capital projects. The process, however, develops a single listing of projects in priority order, and thus facilitates the balancing of projects to the availability of funds.

The 2008 Budget contains authorizations for eight (8) General Projects, thirteen (13) Road and Bridge Projects, seven (7) Sheriff Projects, one (1) Central Police Services Project, five (5) Information and Support Services Projects, two (2) Parks and Recreation Projects, two (2) Health Projects, one (1) Emergency Services Project, two (2) Library Projects, five (5) Environment and Planning Projects, one (1) Board of Elections Project, four (4) Erie Community College Projects and one (1) County Clerk Project.

Table 1 summarizes projects in the 2008 Capital Budget. It totals \$58,505,000 including State and Federally funded projects. This table includes the project title in each project classification, a column showing the county six-year total project cost for the projects programmed in 2008, and a column showing the Capital Budget allocations in 2008. Brief descriptions of these projects follow Table 1.

Project descriptions include an indication of the operating budget impacts of capital projects. In many cases, there will be no operating impact in the 2008 budget, either because there will be no impact due to the nature of the project, or because project completion will not occur in 2008. Operating budget impacts that will occur in the future from project completion will be quantified and addressed in the appropriate future budgets.

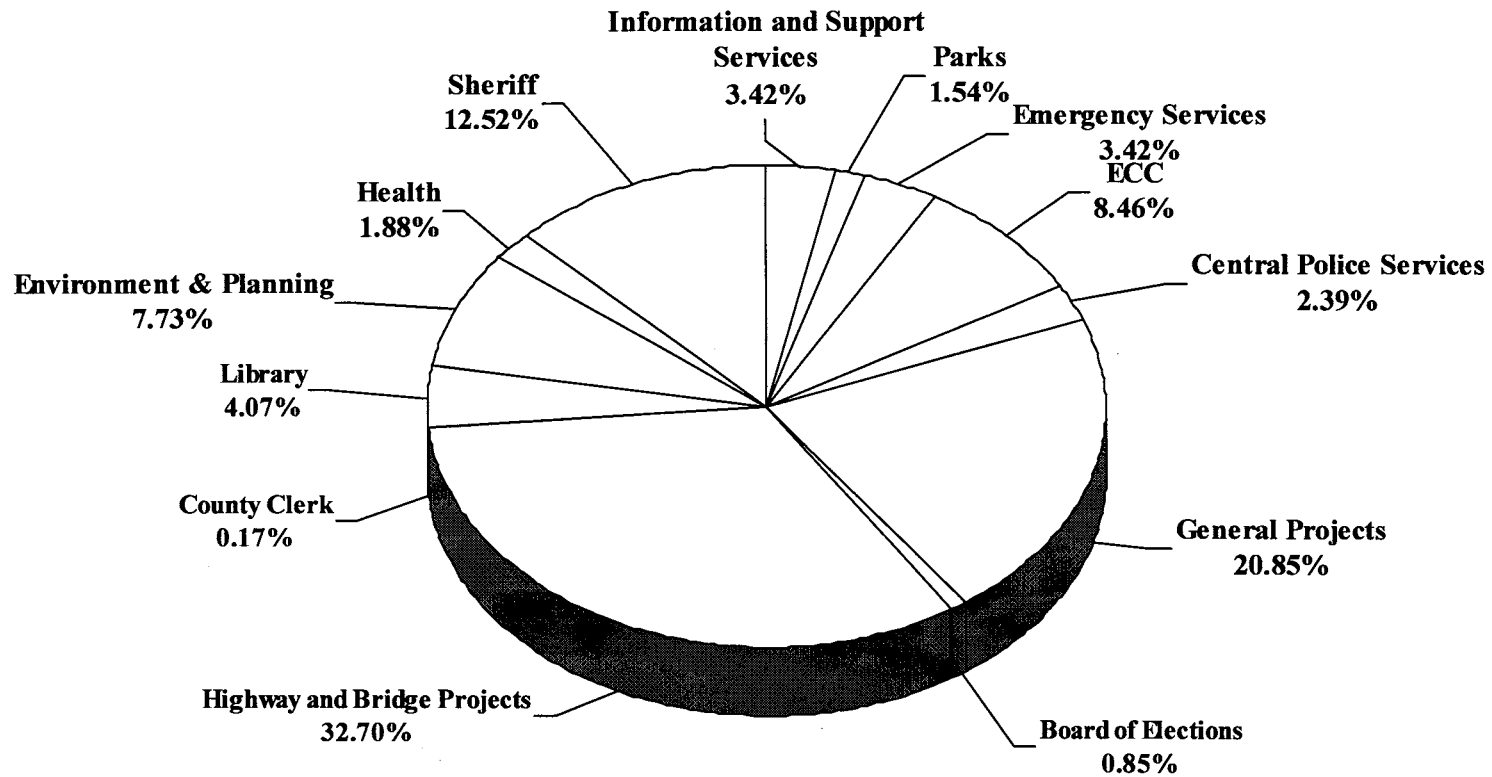

In some cases, such as road and bridge projects or heavy equipment purchases, the capital spending will enable current resources for maintenance and repair to be redirected, with no net change in operating costs.

Following the description of projects included in the 2008 Capital Budget are a series of tables which represent the six-year Capital Improvement Program. The 2008-2013 Capital Improvement Program totals \$470,040,000. It is summarized in Table 2 by department. Schedules which show the six-year Capital Improvement Program projects for each department are provided in Tables 3 through 15.

Comprehensive schedules of outstanding capital debt and debt service requirements are included in the Debt Service Fund section of the 2008 Budget.

2008 Capital Budget Project Descriptions

I. GENERAL PROJECTS

REHABILITATION OF RALPH WILSON STADIUM (ORCHARD PARK)

The Stadium, located in Orchard Park, is the home of the NFL Buffalo Bills. In the lease agreement with the Bills, the County is required to finance structural improvements. Funding in the 2008 Capital Projects Budget allows the County to continue the rehabilitation program necessary to correct the many structural, mechanical and electrical deficiencies.

Bonded Project: \$2,800,000

BOTANICAL GARDENS MASTER PLAN RECONSTRUCTION (BUFFALO)

This project involves the ongoing implementation of the redevelopment program for the Buffalo and Erie County Botanical Gardens. This includes continuation of work regarding the rehabilitation of the facility and other improvements needed to conform to the long-range concept plan. Various improvements will be funded by this phase, including but not limited to the Growing Houses and support spaces.

Bonded Project: \$1,000,000

CONVENTION CENTER RENOVATIONS AND IMPROVEMENTS (BUFFALO)

This phase of work is the continuation of Erie County capital projects started in 1994. This project will fund the renovations to the Exhibit Hall and Kitchen Area.

Bonded Project: \$5,000,000

CODE COMPLIANCE AND RECONSTRUCTION OF COUNTY BUILDINGS (COUNTYWIDE)

This is a continuation of a program started in 1989 to assure County compliance with the latest codes and regulations and to reconstruct County facilities as necessary to provide a healthy and safe environment for the public and staff. Included are such items as fire protection, air quality, handicapped access and correction of building deficiencies and code violations. This project provides for services of consultants as well as actual construction.

Bonded Project: \$700,000

ROOF REPLACEMENT AND WATERPROOFING OF BUILDING ENCLOSURES (COUNTYWIDE)

This is a continuation of a long-range program to replace many roofs that are well beyond their useful

life and have deteriorated to the point where the building interior systems are being damaged due to water infiltration. Exterior sealing and waterproofing of walls is required to maintain buildings in a watertight condition and alleviate problems with building interior systems such as electrical, data and mechanical systems.

Bonded Project: \$700,000

REPLACEMENT OF HIGHWAY VEHICLES

This project will provide funds to purchase new highway vehicles to include dump trucks, gang trucks and gradalls. The present fleet is very old and "down time" and part requirements are increasing.

Bonded Project: \$700,000

WATERPROOFING AND REHABILITATION OF OLD COUNTY HALL (BUFFALO)

This project will provide for various improvements, including the exterior replacement of windows, cleaning of exterior stone and sealing the building.

Bonded Project: \$500,000

FRANK LLOYD WRIGHT BOATHOUSE PROJECT

This project is for financing to provide a suitable substitute site for the New York State Division of Military Naval Affairs (DMNA). The site will be developed per DMNA specifications.

Bonded Project: \$800,000

This project has cost saving implications.

Bonded Project: \$300,000

SAP FUNCTIONALITY EXPANSION/BUSINESS INTELLIGENCE

The Business Intelligence module of SAP, owned by Erie County, is required for Grant Management and the implementation of performance budgeting as directed by the Erie County Charter revisions of 2007. In addition, numerous analytical

tools contained in SAP and required by the Erie County Comptroller's Office and Budget Office for future use are enhanced or provided for utilizing SAP Business Intelligence. Also dependent on the implementation of Business Intelligence are the proposed Case Management projects in the human services, probation and law enforcement areas. Business Intelligence (BI) will provide powerful analytical information utilizing both the financial systems and personnel (Human Resource) systems. The funds will provide for the configuration of the software and training for Erie County employees.

Bonded Project: \$160,000

BUSINESS CONTINUITY/DISASTER PLANNING

Each year the County is criticized in the annual financial audit due to the fact it lacks a business plan to carry on information technology and processing operations offsite in the event of a disaster at the Edward Rath Building. The funding for this project will be used to establish an alternative business operation plan to process its operational software offsite should their existing facility or the Department of Information and Support were disabled by a catastrophic event.

Bonded Project: \$250,000

REGIONAL FIBER OPTIC NETWORK BUILDOUT

As a continuation of past strategies to share network roadways with New York State, SUNY, the City of Buffalo, and other municipalities in order to eliminated third party providers, the funds will be used

to extend the current fiber network to the ECMC campus, Erie County Health Department Laboratory and clinics, and Erie County fire and safety buildings on Broadway in Cheektowaga, Cheektowaga Town Hall and the Cheektowaga Police Department. This will supply these locations with high speed access to the Erie County Network and reduce the county's expenses and dependence on third party vendor circuitry.

Bonded Project: \$290,000

VI. PARKS AND RECREATION PROJECTS

IMPROVEMENTS TO CHESTNUT RIDGE PARK CASINO

This project will entail the repointing and sealing of exterior walls, masonry and wood trim of the Casino building. The roof system will also be replaced. Roof monitors and light wells will be replaced with more energy efficient systems. This work is necessary in order to avoid the infiltration of water into the buildings to prevent environmental issues such as mold and mildew. Currently areas of the building are closed due to falling ceiling components that are being damaged by water infiltration. HVAC improvements are needed to replace old antiquated equipment with new energy efficient equipment.

Bonded Project: \$750,000

IMPROVEMENTS TO WENDT BEACH MANSION BUILDING

These funds will be used to address plumbing and electrical problems in the building and to provide for a new heating system. Several of the plumbing lines have burst and need to be replaced. Water leaks in the building have also caused numerous electrical problems that need to be corrected. Currently, the building has no heating system.

Bonded Project: \$150,000

Debt Management

The County administration's Fiscal Stability Plan sets forth objectives regarding prudent debt management. This plan articulated policies and initiatives to reduce the County's debt burden and to improve the County's financial position, including the objective to improve the County's credit rating. The underlying ratings of County bonds by Moody's, Standard and Poor's and Fitch are "Baa3," "BBB" and "BBB-" respectively.

The fundamental principles of the County's debt management policy include: restricting long-term borrowing to improvements too large to be financed from current revenues; continuation of good communication with rating agencies; continuation of full disclosure on all financial and official statements; and the use of bonds rather than Bond Anticipation Notes wherever possible to finance capital projects.

It is the County's intention to limit annual capital borrowing, exclusive of sewer fund debt, to assure a reduction in the amount of long-term debt outstanding. This policy is subject to change to take advantage of future opportunities that may develop.

Supplementing the County's debt management policy are a series of improvements to the County's Capital Planning process. The Capital Planning process is more fully described in the Capital Fund section of the Budget.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for the payment of principal and interest on long-term debt. The Debt Service Fund was established at year-end 1986 to segregate resources for a "Reserve for Bonded Indebtedness" created by the Legislature pursuant to Section 6-h of the General Municipal Law. A Debt Service Fund is required for the legally mandated segregation of resources represented by the reserve. The Debt Service Fund is used only for the accumulation of resources for and payment of General Fund and Sewer Fund debt service.

The types of expenses paid out of the Debt Service Fund are the following:

Bond Principal: When a bond is sold, the County agrees to pay back the amount borrowed over a set period of time. This is called an amortization schedule. It is determined by the "Period of Probable Usefulness" of an item. This time period is set by Local Finance Law. Each bond issue includes a schedule of how much principal will be paid back each year. The annual principal payment expense is paid out of the Debt Service Fund.

Bond Interest: When a bond is sold, it is priced according to market conditions and the credit rating of the County. Typically, these rates change each year and are printed on the cover page of the Bond Official Statement along with the payback schedule. The annual interest expense is paid out of the Debt Service Fund.

Reserves: The County, at its option, can establish a reserve during a year to fund future years' debt service. These reserves must be identified as to that specific debt service they will pay. Local Finance Law restricts the amount of the reserves that can be used in a given year to the amount of the scheduled annual debt service payment. Any excess reserves over this amount must be set aside in the reserve to pay future years' debt service for that project.

Debt service payments on short-term indebtedness are not paid out of the Debt Service Fund. Interest payments on Revenue Anticipation Notes (RAN's), Tax Anticipation Notes (TAN's) and Bond Anticipation Notes (BAN's) are paid directly out of the General Fund. BAN principal payments are made out of the Capital Fund. Debt Service payments on all

Enterprise Fund indebtedness are paid directly from the Enterprise Fund rather than from the Debt Service Fund.

The sources of revenue for the Debt Service Fund are the following:

Accrued Interest: Typically, a bond sale is not closed on the same day as the date of sale. For example, the bonds may be dated September 1st and the closing date may be September 5th. During that five day period, the County is responsible to pay interest to the bond holders. The bond underwriter, therefore, holds the cash for the five days and pays interest to the County equal to the amount of interest expense the County incurs for those five days. This interest income must be restricted for payment of future debt service on the bonds issued.

Interest Earnings: Bonds are typically sold to finance Capital projects. A capital project can take from six months to six years or longer to complete. Therefore, the County invests the bond proceeds and draws against the proceeds only as needed to pay bills. The interest generated on the invested bond proceeds is restricted to pay debt service for the specific project for which the bonds were borrowed.

State/Federal Aid: If any aid is received as a reimbursement for debt service incurred by the County, this aid must be restricted for payment of debt service for the specific project for which the aid was received.

Unexpended Bond Proceeds: The amount borrowed for a capital project is an estimate of the cost of the project. If the project is completed for less than the estimate and less than the amount borrowed, these excess

bond proceeds may then only be used for the following purposes: if debt service still exists for the project, then the excess bond proceeds must be used and/or reserved to pay this debt service; if no debt service for the project exists, then the excess bond proceeds may either be used to pay other debt service, or to fund other "like" capital projects, or they may revert back to the General Fund.

Subsidies: The difference between debt service to be paid during a year and revenues available from any other sources must be funded. This funding is provided in the form of subsidies from the General Fund, Public Library Fund and the Sewer Fund. The subsidies are provided in the form of interfund transfers to the Debt Service Fund.

The schedules which follow detail the debt service principal and interest payments and installment purchase debt to be paid out of the Debt Service Fund in 2008. These payments include General Fund, Public Library Fund, Erie County Medical Center, Erie County Home and Sewer Fund debt service obligations. The schedules also detail the various sources of revenue available to the Debt Service Fund, including the subsidies provided by the General Fund, Public Library Fund and Sewer Fund.
