

# Are you experiencing COVID-19 symptoms?

You may qualify for a study to help advance research. Our team wants to find out if an exploratory drug will lessen hospitalization and symptoms in people with COVID-19.

## You May Qualify If You

- Currently have COVID-19 symptoms
- Positive COVID-19 Test
- Are ages 18+
- Do not have chronic liver or kidney disease

## Potential Benefits

Participating in this study may help researchers find a better way to help people with COVID-19.

## Participation Involves

- You will be in this study for about 6 weeks
- You will take the study medication or a placebo 3x/day for 2 weeks
- Initial visit is in person, rest of the study will be done via phone or mail.

**Location:** From your own home
