

ERIE COUNTY SEWER DISTRICT NO. 2 (ECSD 2)  
BOARD OF MANAGERS MEETING  
THURSDAY, FEBRUARY 1, 2024  
DISTRICT ADMINISTRATION BUILDING

MEMBERS PRESENT: Mayor Vincent George, Angela Horton, and Anna Knack

OTHERS PRESENT: Supervisor Ray Ashton, Chris Baldwin, Joseph Fiegl, Nancy Forys,  
Carl Horne

ITEM NO. 1 – CALL MEETING TO ORDER

Ms. Knack called the meeting to order at 9:01 am.

a. Nominations of Board Officers

Mr. Fiegl verified that Ms. Knack has agreed to stay on as Chair, Mayor George as Vice Chair, and Ms. Horton will remain as Secretary through 12/31/2025. On a motion by Ms. Horton, seconded by Ms. Knack, the Board voted to approve the nominations. The motion carried 3 – 0.

Ms. Knack took the opportunity to welcome Supervisor Ray Ashton from the Town of Evans and all attendees introduced themselves.

ITEM NO. 2 – APPROVAL OF OCTOBER 5, 2023 MEETING MINUTES

On a motion by Ms. Knack, seconded by Mayor George, the Board voted to approve the minutes from the October 5, 2023 meeting. The motion carried 3 – 0.

ITEM NO. 3 – ITEMS FROM THE PUBLIC

a. 8 Gowans Rd, Angola (Handout)

Mr. Fiegl addressed the Board regarding a letter dated 1/24/2024 that the Division of Sewerage Management (DSM) received from the owner of 8 Gowans Rd, Angola. The owner, Mr. Dotys, purchased this property in October 2023 and is disputing sewer taxes on his tax bill because it is currently serviced by a septic system and not connected to the sanitary sewer. Ms. Horton provided a map of the parcel and sewerlines, along with the last couple years of the tax bills showing the assessed valuation charges. Mr. Fiegl stated that the DSM will draft a letter on behalf of the Board to Mr. Doty advising how ECSD 2 is a benefit assessment district for those located within the boundaries. Information on a septic disposal discount to ECSD 2 will be included. Mr. Fiegl also stated the DSM would conduct an economic analysis showing the potential cost to extend sewer service to this area, which would entail a creek crossing.

ITEM NO. 4 – OLD BUSINESS

There was no old business at this time.

## ITEM NO. 5 – NEW BUSINESS

### a. Approval for Enforcement Hearing: Fine Stages (Handout)

Ms. Horton provided background information on the house inspection program for Supervisor Ashton. Mr. Fiegl mentioned that the authority is given to the DSM by the Legislature to enforce the Rules & Regulations for ECSD's.

The Board was provided with a list of 13 property owners recommended for a premium assessment following the enforcement hearing held on 11/15/23. The DSM is recommending moving forward to the premium assessment phase if noncompliance continues. Ms. Horton provided a copy of the hearing findings and explained that the property owner will be notified by another letter to be sent around March 1<sup>st</sup> advising them they have 30 days to comply. If the homeowner does not comply, the premium assessment would be \$100 per month anticipated to begin April 1<sup>st</sup>. On a motion by Mayor George, seconded by Ms. Knack, the Board voted to move forward with the premium assessment stage. The motion carried 3 – 0.

## ITEM NO. 6 – MISCELLANEOUS & INFORMATIONAL ITEMS

### a. Operational Report

Mr. Baldwin provided the Board with an update on ECSD 2 activities since the last meeting. The collection system activities consisted of flushing 17,556 feet of sewerline, televising 723 feet of sewerline, and completing 5 manhole repairs. There was a total of 18 complaints that were responded to including: 4 grinder related, 13 sanitary sewerline related, and 1 odor related.

At the Water Resource Recovery Facility (WRRF): the aeration blower replacement project is on-going, Frey Electric began infrastructure technology (IT) improvements, and the Admin Building boiler was replaced. The floatation thickener (FT) Abel pump project continues including the bases were fabricated and painted, holes and threaded rods installed, pumps leveled and bolted down. The new FT steel repairs and coating will be going out to bid. Crews drained and cleaned out the hood and center channel of the North and South sand filters and super-chlorinated both; drained and hosed #3 clarifier and also performed repairs on sections of the sweep; replaced compressors on #1 and #2 influent pumps; and changed UV bulbs in 1A and 1B banks.

At the pumping stations (PSs): crews swapped the muffin monster with a rebuilt one at the Sweetland PS; investigated generator issues at the Brant Farnham PS, and on the recommendation by Penn Power crews flushed the coolant repeatedly and replaced the block heater, then tested it and put it back in service; the block heater hosing was replaced at the Lotus Bay PS; check valves were repaired at both the Schreiner & Shorecliff PSs; and the electronic technician rewired what is known as the peckerhead on the pump at the 18 Mile PS.

Mr. Baldwin also noted that during the month of January, staff prepped for the multiple weather events in ECSD 2, which helped to minimize response time and issues.

Supervisor Ashton inquired about sanitary sewer overflows. Mr. Baldwin stated that the number has been significantly reduced as this is a continuous effort by the DSM to make it better. Mr. Horne concurred that overflows are much better than in past years. He advised that as part of

the budget and ARP funding, the district receives monies to remove extraneous water in the system through the inflow and infiltration (I&I) program. Mr. Fiegl added that there are still issues in the Sweetland PS area, which the DSM is addressing, but has improved from what was experienced in the past. He commented that there were no overflows south of the Big Sister Creek WRRF during the last major melt event at the end of January, which would not have been the case prior to the upgrades completed.

b. Construction Report

Ms. Horton reviewed the construction updates which included: Contract 95 cured in place pipe lining (CIPPL). Kenyon performed prep work on sewerlines in the Village of Angola with asbestos cement pipe (ACP) and they will begin prep work on truss pipe on South Main Street in the Town of Eden once the highway permits are in place. CIPPL work on this work order is anticipated to commence later this year.

Contract 100 Big Sister Creek IT infrastructure improvements with Frey Electric consists of expansion of fiber optic service and ethernet cable at the facility, installation of new infrastructure to support the facility's upcoming transition to a voice over IP (VOIP) phone system, installation or replacement of network cabinets, and replacement of outdated technology devices including speakers and network switches. Work is underway and completion is anticipated by the end of April 2024.

Contract 101 Big Sister Creek aeration blower replacement project with Quackenbush & Frey Electric: work is underway on this project to replace aeration blowers, piping and associated electrical infrastructure at the facility. Existing blowers have been demolished. New blowers and piping have been delivered to the facility and are anticipated to be installed over the next few months. A time extension, at no additional cost to the contract, has been requested by Frey Electric due to long lead times for material procurement and is being reviewed by the DSM. Mr. Fiegl commented that the new blowers are turbo blowers which are high efficiency.

Contract 96, the multi-district sanitary sewer open cut repair term contract for 2024-2026, had bids received through Erie County's Purchasing Department on January 12<sup>th</sup> for repairs to be issued on a work order basis. The contract will be in place for two years and the bids are still under review.

Evaluation phase services for the rehabilitation/replacement of the Wide Beach and Lotus Bay forcemains and PSs is anticipated to be issued as a work order to another engineering consultant under the current term engineering contract.

A sewerline supported on concrete piers at a creek crossing on Old Lakeshore Road just north of North Creek was identified as a candidate for evaluation. It is anticipated an engineering work order will be issued to check the structural condition of this sewerline.

Through the engineering term contract, Ramboll has been assigned to evaluate five PS including Brant-Farnham, 18 Mile Creek, North Creek, North Evans, and Sweetland facilities. The PSs will be evaluated for operational improvements and equipment replacement due to the age of the equipment.

Supervisor Ashton asked if ACP sewerlines are removed or left in place during the CIPPL. Ms. Horton explained that they are left undisturbed to avoid exposure and expensive asbestos removal.

c. Payments (Handout)

Ms. Horton conveyed to the Board that several district payments were made to Wendel for the Big Sister Creek WRRF Blower System; to Greenman-Pederson for PS Evaluation; to Quackenbush for Big Sister WRRF Secondary Aeration Blowers Replacement; to Camden Group for Manhole Rehabilitation; to Kenyon Pipeline for CIPPL; and to Frey Electric for the Big Sister Creek WRRF IT improvements.

Ms. Horton noted there was a correction to the Board of Managers 2024 Meeting Schedule previously approved at the October meeting, whereas the December date was corrected to Thursday, December 5, 2024.

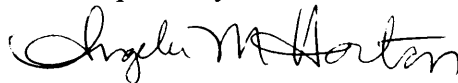

Ms. Knack moved, seconded by Ms. Horton to receive and file the miscellaneous and informational items on the agenda. The motion carried 3 – 0.

ITEM NO. 7 – ADJOURNMENT & NEXT MEETING

On a motion by Ms. Knack, seconded by Mayor George, the meeting was adjourned at 9:30 am. The motion carried 3 – 0.

**Next meeting is scheduled for Thursday, April 18, 2024 @ 9:00 a.m.**

Respectfully submitted,

Angela M. Horton, P.E., Secretary  
ECSD 2 Board of Managers

Approval of Minutes:

Motioned By: A Horton

Seconded By: Mayor George

Approved/Disapproved: 4/0

Date: 4/18/2024

Signed: Angela M Horton

AMH:nf:O:\Southern Region\Clerical\BOM\2024 Meetings\D2 BOM Meeting Minutes 2-1-24.docx

ERIE COUNTY SEWER DISTRICT NO. 2 (ECSD 2)  
BOARD OF MANAGERS MEETING  
THURSDAY, APRIL 18, 2024  
DISTRICT ADMINISTRATION BUILDING

MEMBERS PRESENT: Supervisor Ray Ashton, Mayor Vincent George, Angela Horton,  
and Anna Knack

OTHERS PRESENT: Chris Baldwin, Joseph Fiegl, Nancy Forys, and Carl Horne

ITEM NO. 1 – CALL MEETING TO ORDER

Ms. Knack called the meeting to order at 9:00 am.

ITEM NO. 2 – APPROVAL OF FEBRUARY 1, 2024 MEETING MINUTES

On a motion by Ms. Horton, seconded by Mayor George, the Board voted to approve the minutes from the February 1, 2024 meeting. The motion carried 4 – 0.

ITEM NO. 3 – ITEMS FROM THE PUBLIC

a. 8 Gowans Rd, Angola, Response Letter (Handout)

Ms. Horton reviewed to the Board a letter dated 2/9/24. This was in response to an inquiry from the homeowner at 8 Gowans Rd, Angola, disputing sewer taxes on his tax bill because he is currently serviced by a septic system and not connected to the sanitary sewer. After receiving the letter, the homeowner contacted Ms. Horton and she explained possible reasons why it was not feasible to extend sewers in that area but at the Board's request an evaluation would be completed. Ms. Horton also provided guidelines on how he can receive a septic disposal discount and followed up with an email.

i. Engineering Evaluation Memo (Handout)

At the request of the Board, the Division of Sewerage Management (DSM) prepared a feasibility analysis to service 8 Gowans Rd, Angola, and the surrounding area. A handout was provided to the Board explaining the three options considered for possible routes to extend the public sewers and provide sewer service. Each option had two alternatives that were evaluated, one consisted of a gravity sanitary sewer while the other consisted of a Low-Pressure Grinder (LPG) system. Two options serviced 3 properties, while one option serviced 7 properties. Due to reasons related to the topography, only those options with an LPG system were feasible. Costs were very high to service 3-7 properties with an estimated return on investment of over 190 years.

Ms. Horton moved, seconded by Ms. Knack, that the Board would not to proceed with the project at this time due to cost vs. benefit and to file this information. The motion carried 4 – 0.

ITEM NO. 4 – OLD BUSINESS

There was no old business at this time.

## ITEM NO. 5 – NEW BUSINESS

### a. Out of District Customer Request – Versailles Rd (Handout)

Ms. Horton presented to the Board a formal request from Ms. Kristy Tucker of MJ Peterson/Tucker Homes LLC requesting to connect a proposed single-family home to the ECSD 2 sanitary sewer system along Versailles Road in Hamburg as an out-of-district customer (SBL 193.02-4-8.2). Upon approval by the Board, the DSM will execute an out-of-district customer agreement with the owner.

On a motion by Ms. Horton, seconded by Mayor George, the Board voted to approve this request for an out of district customer. The motion carried 4 – 0.

### b. I/I Enforcement Hearing (Handout)

As a follow up from the February meeting, Ms. Horton advised the Board that as of April 1<sup>st</sup> fines began for the 8 properties that did not comply with their inspection following the hearing officers recommendations. They began to accrue \$100 per month fine that will show on their next tax bill until they comply.

The Board was also provided with a list of 16 property owners who have not complied with a house inspection. The DSM is recommending to proceed with an Enforcement Hearing.

On a motion by Ms. Knack, seconded by Supervisor Ashton, the Board voted to move forward with a referral to an Enforcement Hearing for the 16 properties. The motion carried 4 – 0.

## ITEM NO. 6 – MISCELLANEOUS & INFORMATIONAL ITEMS

### a. Operational Report

Mr. Baldwin provided the Board with an update on ECSD 2 activities. Since the last meeting, the collection system activities consisted of flushing 8,969 feet of sewerline and completing 284 manhole inspections in the focus area and along trunk lines. There were 3 manhole repairs completed and others are scheduled to be completed weather dependent. Crews replaced a 5-foot section of the Brant-Farnham forcemain, which was a significant task due to a break. There were a total of 28 complaints responded to including 7 pumping station (PS) related, 6 grinder related, 1 odor related, and 14 sewerline related.

At the Water Resource Recovery Facility (WRRF): the aeration blower replacement project continues; Frey Electric information technology (IT) infrastructure improvements continue; floatation thickener Able pump project continues with finished piping and a poured concrete base; the grit pump was replaced in the Influent building; new return activated sludge (AS) and waste AS sensors were installed; staff started hauling sludge to the Chautauqua County Landfill; replaced recirculation pump for the influent #1 variable speed control; replaced seals on the Press Abel pump; and repaired the skimmer on the South clarifier.

At the PS's: a pump was replaced at the Evangola PS; pump #1 was replaced at the Sweetland PS; and a check valve was fixed at the Point Breeze PS.

Mr. Fiegl noted that in the past the Brant-Farnham forcemain has had breaks in the line. It was determined this was associated with a previous repair and not something indicative of failing pipe

condition. Mr. Baldwin also mentioned that the Erie County Water Authority has shared procedures on utilizing stronger couplings and clamps for these repairs.

b. Construction Report

Ms. Horton reviewed the construction updates which included Contract 95 cured in place pipe line (CIPPL) where Kenyon Pipeline completed 8,147 feet of ACP sewerlines in the Village of Angola. Prep work and televising was completed on 1,015 feet of truss pipe on South Main Street in the Town of Eden and CIPPL work will be scheduled at this location in the near future.

Contract 93 Manhole Rehab with Camden Group, work order 4 was issued last week for 22 manholes to be spinned and have a chimney seal applied, mostly in the Sweetland area in Evans.

Contract 100 Big Sister Creek IT infrastructure improvements with Frey Electric consists of the expansion of fiber optic service and ethernet cable at the facility and related IT upgrades. The majority of the original contract scope of work has been completed and they are working on additional scope items. The DSM authorized an additional scope of work to upgrade 4,800 feet of existing fiber optic cable at the facility that was discovered to be obsolete OMI fiber optic cable. The additional scope will largely be covered using project contingency, cost savings generated from scope removals identified earlier in the project, and available quantities in other unit price items in the contract. A 90-day extension was authorized resulting in a new contract end date of July 6, 2024.

Contract 101 the Big Sister Creek aeration blower replacement project, the majority of the General contract work has been completed by Quackenbush and they have demobilized from the site. New blowers and piping have been installed and tie-ins to existing pipe are completed. The original project end date has expired and a time extension, at no additional cost to the contract, was requested by the Electrical contractor, Frey Electric, due to long lead times for material procurement (switchgears). The no-cost to the contract time extension was approved by the County Executive's office on behalf of DSM and the project completion date has been extended to July 21, 2024. An initial startup, testing and commissioning of the blowers on the existing electrical system has been scheduled for late April. A no cost time extension for Quackenbush is being distributed for signatures. The proposed General end date will match the Electrical end date, which will allow for a final testing and startup of the blowers and final electrical system together once all electrical installation work has been completed.

For designs and evaluations, the DSM requested an engineering work order proposal from Ramboll to evaluate the Wide Beach and Lotus Bay forcemains and PS's and to prepare an engineering report recommending rehabilitation and replacement of those two stations. The DSM is also evaluating two existing blind tee connections/road crossings on North Main Street in the Town of Eden for replacement, where coordination with NYSDOT is anticipated.

Evaluations of 5 PS's are covered under the Engineering Term Contract with Ramboll including: Brant/Farnham PS, Eighteen Mile PS, North Creek PS, North Evans PS, and Sweetland PS. Possible improvements include pumping, valves or other mechanical equipment, and site and electrical improvements. A report is expected this summer with some or all of the recommendations anticipated to be included in a future design.

i. Big Sister Aeration Blower Replacement Project – Change Order No. 1 (Handout)

Attached is Change Order No. 1 which has no increase in the cost to the project but will extend the completion date to July 21, 2024.

c. Payments (Handout)

Ms. Horton conveyed to the Board district payments made to Wendel for the Big Sister Creek WRRF Blower System; to Quackenbush for the Big Sister Creek WRRF Secondary Aeration Blowers Replacement; to Kenyon Pipeline for CIPPL; to Frey Electric for the Big Sister Creek WRRF IT improvements; to Kandey Company for sewer repair; to Brown & Caldwell for the Biosolids Master Plan; to Visone Construction for spot repairs; to Ramboll for PS Operation & Emergency Power Generator Evaluation; and to Progressive Roofing for the Big Sister Creek WRRF roof replacement.

Ms. Knack moved, seconded by Mayor George, to receive and file the miscellaneous and informational items on the agenda. The motion carried 4 – 0.

At this point the floor opened up to questions. Supervisor Ashton asked if we are connected to Erie Net and Mr. Fiegl advised we are in the project planning phase to do that.

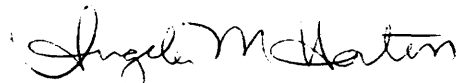

Supervisor Ashton also asked if he has permission to report on information and reports discussed during the Board meetings to his Town Board meetings. Mr. Fiegl advised that everything discussed during the ECSD 2 Board meetings is public information, unless during executive session, and he may certainly report on items of interest.

ITEM NO. 7 – ADJOURNMENT & NEXT MEETING

On a motion by Ms. Knack, seconded by Ms. Horton, the meeting was adjourned at 9:27 am. The motion carried 4 – 0.

**Next meeting is scheduled for Thursday, June 13, 2024 @ 9:00 am.**

Respectfully submitted,

Angela M. Horton, P.E., Secretary  
ECSD 2 Board of Managers

Approval of Minutes:

Motioned By: A. Horton

Approved/Disapproved: 3/0

Date: 6/13/2024

Signed: Angela M. Horton

ERIE COUNTY SEWER DISTRICT NO. 2 (ECSD 2)  
BOARD OF MANAGERS MEETING MINUTES  
THURSDAY, OCTOBER 10, 2024  
DISTRICT ADMINISTRATION BUILDING

MEMBERS PRESENT: Supervisor Ray Ashton, Mayor Vincent George, Angela Horton and Anna Knack

OTHERS PRESENT: Christopher Baldwin, Joseph Fiegl, and Carl Horne

ITEM NO. 1 – CALL MEETING TO ORDER

Ms. Knack called the meeting to order at 9:00 am.

ITEM NO. 2 – APPROVAL OF JUNE 13, 2024 MEETING MINUTES

On a motion by Ms. Horton, seconded by Supervisor Ashton, the Board voted to approve the minutes from the June 13, 2024 meeting. The motion carried 4-0.

ITEM NO. 3 – ITEMS FROM THE PUBLIC

There were no items from the public.

ITEM NO. 4 – OLD BUSINESS

There was no old business at this time.

ITEM NO. 5 – NEW BUSINESS

a. 2025 User Charge

i. Public Hearing Notice & Meeting Minutes (Handout)

Ms. Horton summarized to the Board the public hearing minutes from September 25, 2024. She reviewed the proposed rates and compared them to the previous year. Mr. Fiegl added that some rates have increased, while others have decreased, and that no comments were received from the public.

ii. Approval of Resolution

On a motion by Ms. Horton, seconded by Ms. Knack, the Board voted to approve the User and Utilization Charge Resolution. The motion carried 4-0.

b. Proposed Updates to “Rules and Regulations for Erie County Sewer Districts” (Handout)

Mr. Fiegl reviewed with the Board the proposed changes to the “Rules and Regulations for Erie County Sewer Districts” which were last updated in 2009. He noted that many updates were in response to Environmental Protection Agency (EPA) or Department of Environmental Conservation (DEC) inspections or requirements, and also to update procedures and protocols followed by the Division. Mr. Fiegl advised the Board the next steps include a SEQR review and review by the County Attorney’s office.

On a motion by Ms. Knack, seconded by Mayor George, the Board voted to approve the proposed revisions to the Rules and Regulations. The motion carried 4-0.

c. 2025 Meeting Schedule (Handout)

The Board was provided with a meeting schedule for 2025. On a motion by Ms. Horton, seconded by Supervisor Ashton, the Board voted to approve the 2025 meeting schedule. The motion carried 4-0.

d. Trucker Discharge Permits Approval

i. Confirmation of Email Poll – Additional Application Request (Handout)

In August a request was made by Pinto Site Services to be added as a wastehauler in 2024 to discharge at ECSD 2. Ms. Horton made a motion by email/phone poll, which was seconded by Ms. Knack and approved unanimously on August 30, 2024. On a motion by Ms. Horton, seconded by Ms. Knack, the Board voted to confirm the email/phone poll. The motion carried 4-0.

ii. 2025 Requests (Handout)

Ms. Horton reviewed with the Board the nine companies requesting to be a wastehauler in 2025 to discharge at ECSD 2. On a motion by Supervisor Ashton, seconded by Mayor George, the Board voted to approve the trucker's discharge permits for 2025. The motion carried 4-0.

e. Confirmation of Email Poll - Contract Closeout Big Sister IT Infrastructure Improvements (Handout)

In June a request was made to closeout Contract 100, Big Sister Creek WRRF IT Infrastructure Improvements Project with Frey Electric Construction Co. The final contract amount was \$713,943.08, which included change order no. 1 (final), an increase of \$20,943.08. Ms. Horton made a motion by email/phone poll, which was seconded by Supervisor Ashton and approved unanimously on June 20, 2024. On a motion by Ms. Horton, seconded by Supervisor Ashton, the Board voted to confirm the email/phone poll. The motion carried 4-0.

f. Contraction Closeout – Big Sister Aeration Blowers Replacement (Handout)

Ms. Horton reviewed with the Board the close out of Contract 101-G (General) with Quackenbush Co. Inc. and 101-D (Electrical) with Frey Electrical Construction Co. Inc. Contract 101-G was closed in the final amount of \$1,029,821.68, which included Change Order No. 3 (final), a decrease of \$44,178.32. Contract 101-D was closed out in the final amount of \$590,465.00, which included Change Order No. 3 (final), a decrease of \$19,435.00. On a motion by Ms. Horton, seconded by Mayor George, the Board voted to close out Contracts 101-G and 101-D. The motion carried 4-0.

g. I/I Approval for Enforcement Hearing (Handout)

Ms. Horton reviewed with the Board the list of property owners that have not complied with inspection requests and are being recommended for an enforcement hearing. On a motion by Ms. Knack, seconded by Supervisor Ashton, the Board voted to move forward with an enforcement hearing. The motion carried 4-0.

## ITEM NO. 6 – MISCELLANEOUS & INFORMATIONAL ITEMS

### a. Operational Report

Mr. Baldwin provided the Board with an update on ECSD 2 activities since the last meeting. The collection system work consisted of flushing 21,236 feet and televising 17,626 feet of sewerline, inspecting 91 manholes in the focus areas and on the trunklines, and completing 30 manhole repairs. There were a total of 12 complaints responded to including 4 for grinders and 8 sewerline related.

At the Water Resource Recovery Facility (WRRF): the aeration blower replacement project was completed; all annual preventative maintenance (PM) tasks to drain, clean, inspect and perform minor repairs to all plant processes were completed; the plant water pump #2 was replaced; the floatation thickener/able pump installation was completed; both pumps were replaced in the overflow retention facility (ORF) sump pit; the plant storm lines were cleaned, televised, and assessed for lining; and repairs and improvements were completed to the poly makeup system. In addition, the raw and waste activated sludge sensors project is nearly complete and is awaiting programming by the vendor.

At the Pumping Stations (PS): staff completed all the annual generator PM tasks; cleaned and vacuumed out wet wells utilizing the Vactor; replaced the sump pump at Pinehurst PS; and repaired a check valve and replaced the pump control system at the Kellerman PS.

### b. Construction Report

Ms. Horton reviewed the construction updates which included: Contract 95 cured in place pipe lining (CIPPL) term contract with Kenyon Pipeline Inc (KPI) completed 8,147 linear feet (LF) of asbestos cement pipe (ACP) in the Village of Angola and 1,015 LF truss pipe on South Main Street in the Town of Eden. In July, KPI was issued a new work order for CIPPL on approximately 5,300 LF in the Village of Angola (Pleasant Ave, Friend St, Newton St, Pennsylvania Ave, Locust St, Oatman Ave and Commercial St) and the Town of Evans (Summerdale Rd). Prep work has been completed and lining started this week.

Contract 101 Big Sister Creek Aeration Blower Replacement project with Quackenbush and Frey Electric. The electrical work was completed in July and the final startup and implementation of SCADA programming was completed in August. A final walk through was performed on September 10, 2024, and closeout of this project was recommended earlier in this meeting.

Contract 102 Lake Shore Rd Sanitary Sewer Inspection had bids opened on August 16, 2024, and Kande Company was the low bidder with the Division of Purchasing. This project is to perform heavy cleaning and CCTV inspection of approximately 9,200 LF of sanitary sewerlines ranging from 8 inch to 30 inch diameter located on Lake Shore Rd in the Town of Evans. Erie County Highways has an upcoming road rehabilitation project on this road. Work is anticipated to begin later this year.

The DSM has Ramboll evaluating 5 PS's and forcemains for improvements including Brant/Farnham, 18 Mile, North Creek, North Evans, and Sweetland. A draft report was reviewed and DSM comments were sent to Ramboll. A meeting is scheduled for next week to discuss the comments.

The DSM also has Ramboll evaluating the Wide Beach and Lotus Bay forcemains and PS's. A design kick off meeting was held this summer and a draft engineering report with rehabilitation and replacement option is anticipated later this year.

c. Payments (Handout)

Ms. Horton conveyed to the Board that district payments were made to Wendel for the Big Sister Creek WRRF Blower System; to Quackenbush for the Big Sister Creek WRRF Secondary Aeration Blowers Replacement; to Kenyon Pipeline for CIPP Lining; to Frey Electric for the Big Sister Creek WRRF Secondary Aeration Blowers Replacement and IT Improvements; to Brown and Caldwell for the Biosolids Master Plan; to Ramboll for the PS Operation & Emergency Power Generator Evaluation; to Nussbaumer & Clarke for construction inspection; and to Camden Group for Manhole Rehab.

Ms. Knack moved, seconded by Ms. Horton to receive and file the miscellaneous and informational items on the agenda. The motion carried 4-0.

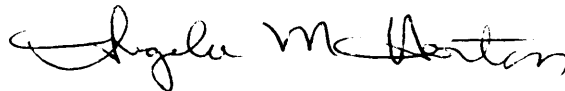

Supervisor Ashton asked if there were any updates on the development at the Agricultural Park along Eden Evans Center Road, noting that there have been some businesses inquiring. Mr. Fiegl responded that although there is sanitary sewerline along that road, the majority of the property is outside of the District boundary and there is limited capacity available at the WRRF. That said the DSM is evaluating options to provide additional capacity. Mr. Fiegl also added that the DSM has been coordinating with the Erie County Industrial Development Agency (ECIDA), as they are handling the project.

ITEM NO. 7 – ADJOURNMENT & NEXT MEETING

On a motion by Ms. Knack, seconded by Mayor George, the meeting was adjourned at 9:34 am. The motion carried 4-0.

**Next meeting is scheduled for Thursday, December 5, 2024 @ 9:00 a.m.**

Respectfully submitted,

Angela M. Horton, P.E., Secretary  
ECSD 2 Board of Managers
