

Training Announcement

**Fire Prevention
and Control**

Course Name: Hazmat Incident Safety Officer

Full Description: This course will provide participants with information as to the role of the safety officer that is required for a hazardous materials incident under OSHA 29 CFR 1910.120. During this course students will learn the functions of the safety officer, the importance of monitoring operations of the hazardous materials operations, the need to provide information to the incident commander, and appropriate actions to be taken in order to provide for the safety of the responders and the public. With the use of scenarios, participants will fulfill the role of the safety officer at various scenes and make appropriate safety considerations

Designed for: Incident Safety Officers at hazardous materials incidents
