

E-Learning

Fire Prevention
and Control

Battery Emergencies and Electrical Storage Systems (01-05-0125)

Description: The course gives the students information on the dangers associated with lithium-ion battery emergencies. Students are given knowledge on the uses, construction, and hazards associated with lithium-ion battery storage systems. Students are also advised on firefighter personal protective equipment (PPE) needed to safely respond to these incidents as well recommendations to coordinate the incident and mitigate the hazards. The students are also given an overview on lithium-ion battery vehicle emergencies and recommendations to handle them.

THIS COURSE IS NOW AVAILABLE TO BE TAKEN VIRTUALLY ON THE LEARNING MANAGEMENT SYSTEM. FOLLOW THE DIRECTIONS BELOW.
