INTRODUCTION OF GUESTS: Ryan Schneggenburger – Chief of Kenilworth Fire Company – wanted to address the board in reference to his fire company's two denied nominations for the EC Wall of Honor and the Wall of Honor committee's selection criteria. (See attached letter). There was discussion on this matter and a motion to support the Wall of Honor committee's decision to dery the two Kenilworth appointments to the Wall at this time was made by Peter Spilsbury. The motion was seconded by Dan Nash and approved by all. DATE OF LAST MEETING: APPROVAL OF LAST MEETING: MOTION BY: SECOND BY: SECOND BY: SECOND BY: APPROVED: REPORT OF OFFICERS: CHAIRMAN: No Report SECRETARY: No Report SECRETARY: No Report REPORT OF EMERGENCY SERVICES: COMMISSIONER: No Report 1. Still working on Draeger Building. Requests for bids to do the pier work going out soon. 2. Training – Smokedivers, Women's, and Junior's programs all were very successful. We will be doing them again next year. Looking for sponsorship ideas to help with outside costs of these programs. 3. Fire Engine – We are looking into the possibility of obtaining an engine to dedicate use here at the Fire Academy. We reached out to Springville on the one they are selling. Asked about the possibility of the Village donating it if they don't receive appropriate bids. 4. The EC Fire District Officers Association has decided to purchase 4 new smoke machines to donate to the Fire safety Division for use in our training classes. 5. Old Tower update – The company doing the feasibility study has just about completed their inspection. We're hopping to get a report soon. They state it's looking pretty good so far. 6. The Cheektowaga burn building is in pretty rough shape. Over the past 8 years, we have put effort into the 2 burn rooms. These were the focal points of heaviest use, and most needed care. Our staff did a walkthrough this week and made a list of every issue we found. Mostly issues due to age and rotting of components from exposure to weather and training use. We				n, Jack Chiappone, Jim Guy, Ron Endle, Tom Morris

To: Fire Advisory Board

From: Chief Ryan Schneggenburger, Kenilworth Fire Company Subject: Concerns Regarding the Wall of Honor Selection Process

Good evening members of the Fire Advisory Board,

My name is Ryan Schneggenburger, and I currently serve as Chief of the Kenilworth Fire Company, located in the Town of Tonawanda. I appreciate the opportunity to speak with you this evening regarding several concerns I have with the Wall of Honor nomination process and the operation of the sub-committee overseeing it.

In 2024, I submitted a nomination for Ray Powers, a longtime member who served Kenilworth in various leadership capacities — fire-line officer, company officer, and commissioner. Ray also played a significant role beyond our company, particularly in Town-wide Fire Prevention efforts, where he successfully advocated for annual funding from the Town.

Despite this substantial record, Ray's initial nomination was denied. It wasn't until his instrumental role in donating Thermal Imaging Cameras for Kenilworth came to light that the decision was reversed and he was rightfully placed on the Wall. This sequence raises a concern: Was Ray's inclusion truly based on his broader contributions, or was it only reconsidered due to an equipment donation?

This year, I submitted two additional nominations — individuals who, while they may not have served on outside committees, have each contributed over 50 years of exceptional service and dedication to Kenilworth while serving various leadership capacities such as fire-line officer, company officer, and commissioner. Their work has been critical to the success of specialized operations, including the implementation and use of Kenilworth's old Rescue 7 and current Squad 4, both of which house one of two onboard cascade and rehab systems in Erie County outside of the City of Buffalo.

Shortly after submission, I was informed by the sub-committee chair that these nominations were denied due to a lack of narrative and insufficient justification beyond years of service. However, it was later discovered that not all submitted materials had been reviewed, despite being included in the original packet. After resubmitting and clarifying the relevance of their service — particularly in accordance with Execution of Inclusion Process-Bullet 3 — both nominations were again denied.

During a private meeting with members Jim, Kevin, Doug, Alex, and myself, it was revealed that the written criteria (particularly Selection Criteria, Bullet 2) were not being interpreted consistently. In that same meeting, I observed a nomination authored by a current sub-committee member — a situation that, on its face, appears to involve a conflict of interest. It is concerning that a voting member would be permitted to participate in a process involving their own nomination submission.

Even more troubling, when I asked for clarification about past nominations (such as Ray's involvement in funding efforts), I was told that similar details from current nominees were "irrelevant" — despite such points being previously deemed critical for approval. This inconsistency raises questions about fairness and transparency.

According to the documented process under "Notification of a Declined Nomination". the sub-committee is required to "notify the Fire Advisory Board in writing that based on material presented, the committee does not recommend inclusion of the subject nominee and provide a complete explanation of their findings and conclusion."

This process was not followed in my case. Again, nor did I receive the required written explanation outlining specific deficiencies or absent materials. Instead, I was informed only that the nominations "did not meet the criteria" — a vague and insufficient justification, particularly after revisions were made with assistance from experienced individuals.

I am raising these concerns not just on behalf of myself, but on behalf of all departments and members who may be subject to unclear standards, shifting expectations, or uneven application of the rules. The process must be fair, transparent, and unbiased. Nominees who meet the published criteria — especially after feedback, revisions, and clarification — deserve serious and consistent consideration.

I respectfully request that the Fire Advisory Board as a whole review the current nomination process, including:

- Interpretation and consistency of the selection criteria.
- The role and impartiality of sub-committee members.
- Whether proper documentation and explanation protocols are being followed.

I appreciate your time and attention to this matter and welcome the opportunity to answer any questions or provide further documentation in support of my concerns.

Sincerely, Ryan Schneggenburger Chief, Kenilworth Fire Company
