

Training Announcement

Fire Prevention and Control

Course Name: Introduction To Class B Foam

Full Description: This course is designed to provide the students with an introduction to Class B Foam and how and when it can be used at a scene involving flammable and combustible liquids. In this course students will learn through classroom, tabletop demonstration and hands-on about the different foams, how the foam works, and equipment used in making foam and how to figure out how much foam is needed. They will also be introduced to the different techniques of applying foam so that it provides optimum fire and vapor suppression. The course is designed to teach not only firefighters but drivers and support personnel who will all play a vital role in an emergency involving flammable/combustible liquids.

Designed for: All responders

Prerequisites: None

Course Length: 4hrs

Course Number: 01-09-0118

Course Location(s): Scranton Fire Company
5395 Scranton Rd
Hamburg, NY 14075

Training Dates: Tuesday 5/19/26 @ 18:00hrs

Training Authorization Letters are **REQUIRED** for all courses. A student will **NOT** be enrolled in any course **UNTIL** a valid TAL is on file **PRIOR** to the first day of class. Any student who arrives at class without a valid TAL on file in the state system will be turned away. Priority for class enrollment will be given to those individuals who complete the course application and have a valid TAL on file. Please scan and email a valid Training Authorization Letter with the NYS course number listed to TAL@Erie.gov once you have applied to a course.
