MARK POLONCARZ

COUNTY EXECUTIVE

GALE R. BURSTEIN, MD, MPH, FAAP
COMMISSIONER OF HEALTH

DEPARTMENT OF HEALTH

HEALTH ADVISORY #324

October 30, 2014

EBOLA VIRUS DISEASE (EVD) UPDATE #3

Please distribute to Healthcare Providers, Infection Control Department, Emergency Department, Infectious Disease Department, Director of Nursing, Medical Director, Directors of Pharmacy, Laboratory Service, and all patient care areas.

UPDATE

- The Erie County Department of Health (ECDOH) is advising health care providers and facilities to review the updated Centers for Disease Control and Prevention (CDC) guidelines.¹
- The updated case definition for a Person Under Investigation (PUI) for Ebola is as follows:
 1. Elevated body temperature or subjective fever or symptoms, including severe headache, fatigue, muscle pain, vomiting, diarrhea, abdominal pain, or unexplained hemorrhage;
AND
 2. An epidemiologic risk² factor within the 21 days before the onset of symptoms which includes a travel history to a country with widespread Ebola virus transmission³ (**currently Guinea, Liberia, and Sierra Leone**) or contact within the preceding 21 days with a person with Ebola while the person was symptomatic.
- Prominently post signage asking patients to provide a travel history. Rapid recognition and isolation of possible EVD cases is critical to protecting health and safety.
- **Immediately report all PUI of EVD to the ECDOH Epidemiology and Surveillance Office at (716) 858-7697 during normal business hours and (716) 961-7898 after hours, weekends, and holidays.**
