

# DETECT TO PROTECT

The party  
has changed.

Nearly 7 out of 10  
opioid overdose  
deaths in Erie County  
involved cocaine.

Fentanyl may contaminate illicit drugs, including cocaine. Test your cocaine, carry Narcan, and never use alone to prevent a deadly overdose.

Order fentanyl test strips and  
Narcan at [Erie.gov/Detect](https://erie.gov/Detect)
