ERIE COUNTY DEPARTMENT OF MENTAL HEALTH

APRIL 17, 2023 AND APRIL 19, 2023

BACKGROUND

- ECDMH launched the use of ClearPoint as our reporting system for contract agencies in 2021
- We now have 2 years of data and experience using the system
- There continues to be some issues with reporting and understanding what each of the measures mean
- The purpose of this presentation is to address many of the common mistakes and provide you with a better understanding of how to avoid errors and more efficiently navigate the system

WHY THIS IS IMPORTANT

- How we use the data
 - Assess performance
 - Understand what's happening in the programs
 - Analysis to understand demographics and impact of programs and groupings of programs
- **TIME!!**
 - If you get it right the first time, it saves us time and it saves you time!

PERFORMANCE REPORT PAGE: THE MEASURES COMMON ERRORS AND THINGS TO REMEMBER

THE MEASURES

- Not every program has all of these measures, but most do
- If a measure does not apply to your particular program, other measures we will be talking about probably do
- Please hang in through the entirety of this presentation – ultimately it will help you and us save time and energy – which is good for all of us!

ADMISSIONS

- Definition: Count of enrollments into the program during report period
- This is a count of new clients enrolled in the selected program.

UNIQUE CLIENTS SERVED

Definition: Count of unduplicated clients served year to date (all enrolled)

Key words in this definition:

Unduplicated – each person should only be counted one time during the year, even if they leave the program or service and then return later in a given year.

Year to Date – This is an unduplicated count of individuals served year-to-date. You will need to enter the Q1 data for that year. This would include all of the people you provided this service to in Q1 (and may include some that you served during Q4 of the previous year if they have remained in services.) For Q2, Q3 and Q4 you can just add the number of new admissions to the program. This would hold as long as someone does not return to services in that particular year (for example is Joe Smith leaves services in Q2 and returns in Q4, you would not include him again in the Unique Clients served YTD because he was already counted earlier in the year).

DEMOGRAPHICS: RACE, ETHNICITY, GENDER & AGE

- Definition: Count of unduplicated clients served year to date (all enrolled) by self-identified race/ethnicity/gender/age
- During preliminary review of the data we noticed that in 2021 there were higher numbers of individuals in the “Declined to Answer” response
- In 2022 we saw the percentage of individuals reported as Declined to Answer decrease
- In 2023 we hope to see Declined to Answer go down even more as agencies improve their reporting and data collection

POSITIVE OUTCOME

- Definition: The Positive Outcome is different for different types of programs
- These were developed in consultation with agency and program staff and reflect a primary goal of the program
- Please read the definition for each of the Positive Outcomes in order to provide the requested data

POSITIVE OUTCOME BY RACE/ETHNICITY

- Definition: This is the number of Positive Outcomes by self identified race and ethnicity
- This information will help us identify possible health disparities within agencies, program types, etc.
- We encourage agencies to be looking at this information

NEXT STEPS FOR ECDMH

- We've learned a lot in the past 2 years – thank you for working with us to improve the system
- ECDMH is going to review the data we are asking for to try and refine the measures and definitions, eliminate unnecessary measures, add calculated fields as possible, etc.
- ECDMH is going to conduct more systematic data analysis so we can use the data we have with our providers and work towards system improvements
- We will continue to take your feedback and input about ClearPoint to make it more user friendly and easier to navigate.

YOUR FEEDBACK IS IMPORTANT!!

- The system continues to evolve, and we are still finding opportunities to make corrections and improvements
- Please email us if there are:
 - Errors in calculations
 - Issues or confusion with definitions of measures
 - Changes that could be made to help you (ex. Bolding some words, clarification of definitions, etc.)
 - Suggestions for improvements or reports you are interested in seeing
