

## Addendum

Erie County has cancelled the Request for Proposals, RFP 2022-027VF, to Develop, Design, and Create a Mobile Application and Website for Parents and Caregivers to Address Mental Health Challenges of Children and Adolescents.

The project will still move forward, however it will be divided into two separate requests for proposals. By June 22, 2022 we will be posting a new Request for Proposal for Community Input, Design and Content. In the fall we will issue a Request for Proposal to build the mobile application according to the specifications developed in the Community Input, Design and Content phase.
