FORMAL RESPONSE TO REQUESTS FOR CLARIFICATION

AUGUST 2026

The following are the Erie County Division of Sewerage Management's (DSM's) formal responses to all requests for clarification received regarding the Request for Proposals (RFP) to Provide Construction Administration and Inspection Services for the ECSD No. 4 Depew Pumping Station Improvements Project. This information is provided to those who have formally requested said responses, for use at their discretion, to develop respective proposals.

- (1.) **For clarity, the County would like two separate cost proposals? One for CA services and one for RE services? If so, do we use the same schedule E for both cost proposals? Is there a possibility the County would select different firms for each of these?**

Answer: In two (2) separately sealed envelopes, please submit one (1) copy each of your price proposal for "A - Construction Administration Services" and "B - Resident Engineering Services". Please submit a separate Cost Summary Form, included in Schedule E of the RFP, for each price proposal. The County reserves the right to award these two services separately.

The Erie County Department of Environment and Planning, Division of Sewerage Management would like to thank you for your interest in this very important project.
